Coffee and Oranges growers opportunity! The former Hacienda San Juan plantation presents a rare opportunity to own 151 acres of revitalized land. Untouched for over 50 years, this extraordinary property offers breathtaking natural beauty, agricultural potential, and abundant water resources. Located alongside the Guaba River, which borders one side and traverses the northern edge, the estate also features three natural water streams flowing through its rich terrain. The mountainous land, ranging from 312 to 500 feet above sea level, provides the ideal conditions of the tropical coffee belt, perfect for cultivating Arabica coffee beans: a tropical climate, warm temperatures, alternating wet and dry cycles, optimal altitude, and fertile soil characteristics. The property also supports the cultivation of oranges, for which Las Marías is renowned and hosts an annual festival.
