Eco-Oasis Retreat: Turnkey Opportunity in Playa Bejuco
Discover a rare blend of sustainability, nature, and hospitality in this thoughtfully developed eco-retreat. Over the past decade, the property has evolved from raw land into a fully operational rental business featuring six environmentally conscious units. Just a five-minute walk from the sandy shores of Playa Bejuco, the location offers the privacy travelers seek while remaining close to restaurants, shops, medical services, and public transportation. The property spans 5,000 m² (1.25 acres) and includes two well-designed buildings with a total of six units. Five are short-term rentals, and one serves as a private owner's suite, creating flexibility for both lifestyle and income. The container building is a striking three-level structure built from recycled shipping containers. It includes two one-bedroom apartments and a top-level terrace ideal for relaxing in hammocks and enjoying the surrounding nature. The garden building is constructed from solid concrete and divided into four studio apartments. Each unit includes a kitchenette and private bathroom
